IX	Communication And Research														
REF#	BENCHMARK:	P	K	1	2	3	4	5	6	7	8	9	10	11	12
1	Identify and use communications, email and Internet vocabulary terms.		I	I	D	D	D	D	M	A	→→→→→				→
2	Use different software applications on the Internet (web browser, email, video conference, listserv, etc.)		I	I	D	D	D	D	M	A	→→→→→				→
3	Identify and apply basic components of email message systems (email address, inbox, sent, trash).			I	I	D	D	D	M	A	→→→→→				→
4	Recognize dangers of online activity and the need to protect personal privacy.			I	I	D	D	D	M	A	→→→→→				→
5	Identify the parts of a web browser.			I	I	D	D	D	M	A	→→→→				→	
6	Participate in a teacher created web quest.			I	I	D	D	D	M	A	→→→→				→	
7	Use search engines to find, and gather information.				I	D	D	D	M	A	→→→→				→	
8	Send a message with an attachment; receive an attachment, open, save and delete it.					I	I	D	D	M	A	→→→				→
9	Locate and use Internet resources through bookmarks or message links.				I	I	D	D	D	M	A	→→→				→
10	Identify the elements of a web page (links graphics, text, plug-in).						I	I	D	D	M	A	→→			→
11	Recognize the different viruses and ways to prevent infection.						I	I	D	D	M	A	→→			→
12	Create a personal web quest.								I	I	D	D	M	A	→	
13	Develop systematic search methods to obtain more relevant information from search and meta engines using Boolean logic (and, or, not).								I	I	D	D	M	A	→→	
14	Research, select, analyze, and evaluate information from a wide range of online resources.								I	I	D	D	M	A		→

April 2004   I = Introduce   D= Developing   M = Mastery   A = Apply – Independent use
