

CREATE A WEB QUEST IN POWERPOINT

1) Open Powerpoint and create a Title Slide

2) Click on Insert, and select New Slide from the menu. This should give you a Title with bulleted text for your next slide layout.

3) Type in the reason(s) for your web quest. What essential questions are going to be answered?

Why is the quest important?

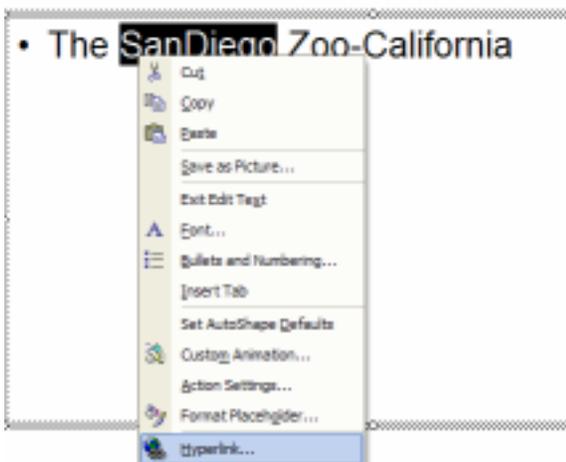

4) Click on Insert, New Slide again. This slide will contain your list of Zoos from around the country. Now begin to type in a list of 5 different Zoos that have web pages.

Visit a Zoo Web Quest

- Students will visit 3 different zoos from the list provided by the teacher
- Pick your favorite Zoo –why is it your favorite?
- Pick a featured and favorite Zoo animal- why do you like it? Tell 3 things about each animal.
- Have you ever visited a Zoo in person?

A virtual visit to the Zoo allows you to see animals you might not get to see in person and allows us to travel to different states with a mouse click.

SELECT A ZOO

5) HOW TO ADD A HYPERLINK

highlight the word you want to make a hyperlink (web page link) and then RIGHT-CLICK.

A menu will appear. Move down the menu and select the item that says HYPERLINK.

6) HOW TO INSERT A HYPERLINK

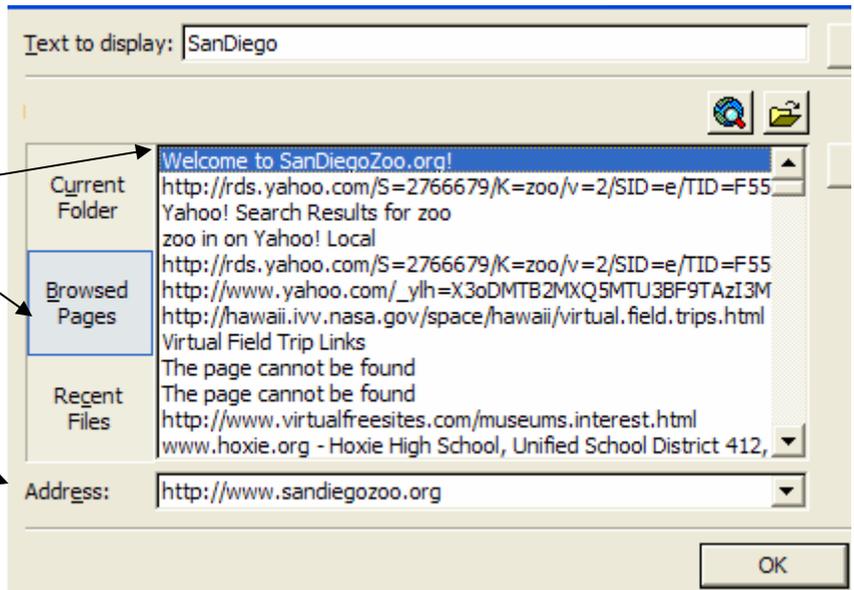

The Insert Hyperlink window appears.

Click on the Browsed Pages Button (which will show you a list of your recent pages you have visited). Select the correct Zoo page from this list.

The web page address should appear in the address line at the bottom.

Click the OK button.

You will return to your slide and the highlighted word should now be colored and underlined to indicate that it is now a clickable hyperlink.

REPEAT STEP 5 and 6 until you have added 5 different Zoos to your list. Please have at least 4 different Zoos –choose only one from the list below.

SELECT A ZOO

- The [SanDiego](#) Zoo-California
- The [Birmingham](#) Zoo- Alabama
- The [Smithsonian](#)-National Zoo
- The [Cincinnati](#) Zoo- Ohio
- The [Bronx](#) Zoo- New York

7) Click on Insert, New Slide to provide more detailed instructions to your class. Describe a featured Zoo animal and show them a picture. Review the expectations again.

Featured Animals

- Each Zoo has a featured animal- often it is an endangered species.
- Which featured animal was the most interesting? List three things about this animal.

Indian Rhinoceros from the Bronx Zoo

OPTIONAL: Add a Hyperlink from this page to show students about a featured animal by linking directly to a specific page within a zoo web site to save instructional time and reduce navigation.

TIP: If you right-click on a hyperlink, a menu will appear and you can select to OPEN (the web page) IN A NEW WINDOW. This will make it easy for you to COPY and PASTE the exact web page address you need.

Having active hyperlinks will transform your slideshow into an interactive multimedia tool that will engage students.

Repeat this process until you have provided students with instructions and questions to answer on this web quest.
